How you see me.

- You see me clean and shiny, with an intense reddish and russet color.
- My violet tones will give you an idea of the long path i still have to go over.
- If you move me, you will find tender tears in your glass.

My aromas.

- My life in an oak barrel mixed, among others, red fruits and milky smells with vanilla and roasted aromas, all them dressed by a soft nuance of pepper.

My flavors.

- I will fill up your mouth with ripen red fruits and roasts.
- I will go through your palate leaving on my way certain milky and spiced nuances which will ever last in every corner of your mouth.

My mates.

- My very best friends are read meats, as well as stews and a very wide variety of cheeses.
- Try me with sweets and I will surprise you.
